OUR highest recommendation is the satisfaction of our clients, for among them we number many of the finest estates, where no compromise with quality is tolerated.

Unsatisfactory merchandise is a poor investment at any price. Inexperienced, impractical horticultural advice may prove disastrous.

With ardor high and anticipation keen, you plan for delights to come. Take every means to guard against disappointment. Consider only those varieties which have proved their excellence and are recommended by experts of long standing.

There is no alternative to quality and there is no substitute for experience. Therefore, judgment dictates consultation with a house that recommends only merchandise of proven first quality, and offers the fruits of thirty years **practical** experience on the part of **every** member of its organization.

No stronger assurance of satisfaction could be extended, but nothing short of a trial order will prove definitely convincing.

May we have the opportunity to serve you with the same gratification which has earned the confidence of the most discriminating clientele.

BUSINESS TERMS

Prices quoted in this catalog are net 30 days and all goods are offered subject to being unsold on receipt of order. Shipments travel at the purchaser's risk after they are in the hands of any common carrier.

Owing to possible fluctuations in international exchange, and other factors beyond our control, for self-protection it is necessary that we reserve the right to change prices should current conditions require it.

If your name is not on our books, may we request that you remit cash, check or money order, or kindly furnish us with satisfactory references.

To secure consideration, all claims should be made immediately upon receipt of merchandise.

Packing is charged extra at actual cost to us.

NON-WARRANTY

While we take precaution to ship only such merchandise as will produce satisfactory results under normal conditions, the nature of our products is such that we cannot guarantee description, quality or productiveness of seeds, bulbs or plants; and cannot hold ourselves responsible for the crop. Only under such condition can we execute orders for merchandise covered by this catalog.

M.-S. Co.'s Superb Mixture of Darwin Tulips

Our mixture is carefully blended and contains a great variety of colors and shades.

Price: \$5.00 per 100, \$48.00 per 1000

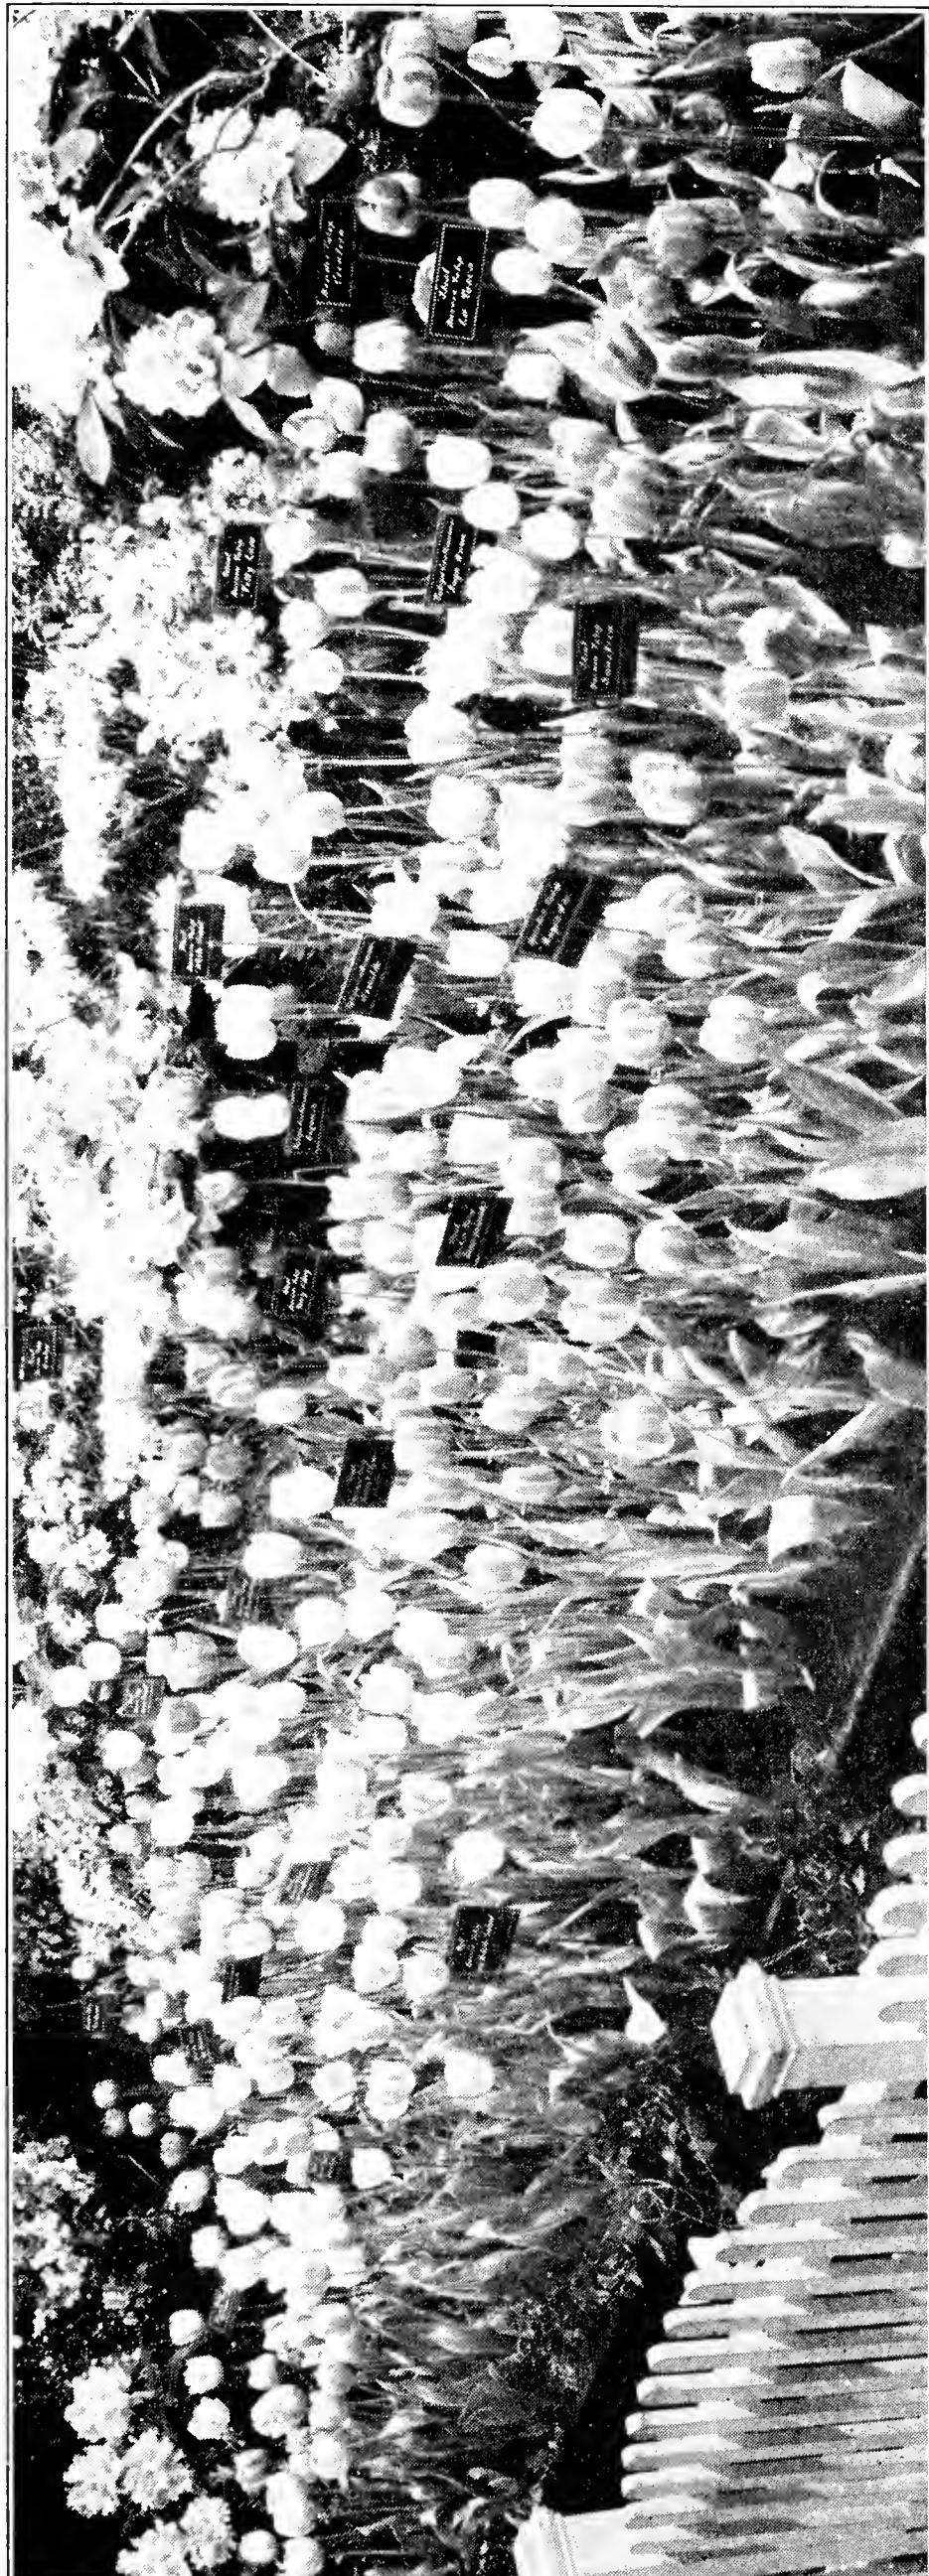

IDEAL DARWIN TULIPS

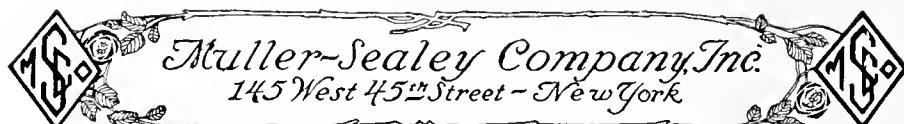

Ideal Darwin Tulips are considered the finest type raised to date. They are superior to most of the "Darwins" now in commerce, and have become outstanding for exhibition purposes. A remarkable feature of this gorgeous type is the extreme earliness of many of the varieties and their adaptability for early forcing.

SINGLE AND DOUBLE SWEET-SCENTED JONQUILS.95	7.00

Mixed Narcissi for Naturalizing

These are particularly suitable for mixed borders, for naturalizing in shrubbery, by woodland walks, in the woods by streams and lakes, or in semi-wild outlying positions. They are perfectly hardy and will flourish and increase for years. Bulbs may be planted either in partial shade or in the full sun and they seem to thrive equally well in any ordinary soil.

We recommend that a mixture of the Large Trumpets and Short Cups be planted together as in this way the flowering period is extended. Exceptionally fine mixtures are offered as follows: 100 1000

Large Trumpets, Mixed.....	\$5.00	\$45.00
Short Cups, Mixed.....	4.50	40.00
Large Trumpets and Short Cups, Mixed.....	4.00	35.00

AZALEA RUTHERFORDIANA

They are a distinct improvement of the type known as tender forcing varieties.

They are the result of crossing Azalea indica varieties with Japanese Kurume, but involving also, the injection of Rhododendron blood. There are three different types—Single, hose in hose, or Semi-double, and Double.

They are more rapid in growth than either the Azalea indica or Kurume, and an important and distinctive feature is the so-called truss structure or formation of the flowering branches of most varieties. Every variety is covered by a **Plant Patent**.

We specialize in choice varieties of plants for the conservatory; also, we are in an excellent position to quote on Hybrid Orchids. Inquiries are welcome at all times and will be promptly attended to.

Pot-grown Strawberry Plants

For best results pot-grown plants should be planted from July 20th to September 1st.

By exercising care in the selection of varieties, provision may be made for fresh Strawberries from early Summer until late Fall. For the home garden at least three varieties should be planted—one of which should be an early sort, another a midseason sort, and one a late fruiting variety.

EARLY VARIETIES

100

BLAKEMORE. Originated by the U. S. Department of Agriculture. Berries are bright, light red, flesh firm, solid center, excellent flavor.....\$7.00

DORSETT. A recent introduction which is positively destined to lead the commercial field as an extra early Strawberry. Large, bright red berries of perfect quality..... 7.00

EARLY JERSEY GIANT. Long known as the early Strawberry, without a fault and is considered the largest fruited early variety. The brilliant crimson berries have a delightful aroma and a rich, mild "Wild Strawberry" flavor..... 8.00

PREMIER. One of the best of the extra early varieties. Produces, in large quantities, berries of good size, attractive appearance and excellent quality..... 7.00

SUCCESS. An old favorite, the bright scarlet berries are large and uniform in size, color, and shape, and delicious flavor..... 7.00

MIDSEASON VARIETIES

ABERDEEN. Huge, bright red berries which are larger than most varieties; a strong grower with dark blue green foliage..... \$7.00

BRANDYWINE. Large, bright crimson berries of excellent quality and flavor..... 7.00

BUNN'S SPECIAL. A glorified "Senator Dunlap," producing far more and larger fruit..... 7.00

CHESAPEAKE. One of the most popular midseason varieties, appealing equally to the eye and to the taste. The bright red berries are large, regular in form and size and of excellent flavor..... 8.00

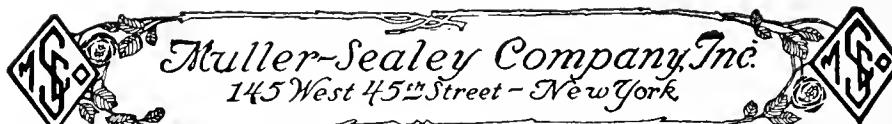

FAIRFAX. Another recent introduction, and one which cannot help assuming the leadership of the home garden as a second early berry. Its flavor is even richer than that of Dorsett, and the berries are slightly larger and very firm..... 8.00

GLEN MARY. A fine variety of large size, great productiveness and good quality. It thrives best on light, sandy soil..... 7.00

HOWARD NO. 17. A remarkably strong growing second early. Berries large, beautiful and of superlative quality..... 7.00

HUNDRED DOLLAR. A splendid midseason variety. Produces very large, light scarlet berries of high quality..... 7.00

JOE. This most valuable variety ripens just after "Chesapeake," equals it in size, firmness and yield, and surpasses it in color and flavor; succeeds upon almost all soils..... 7.00

STRAWBERRY PLANTS, MIDSEASON VARIETIES— Continued

100

MARSHALL. An aristocrat among Strawberries, and with a little care the large, glossy crimson fruits of this delicious sort will produce the very acme of berry perfection..... \$7.00

McKINLEY. A popular variety producing handsome, juicy, and delicious fruits..... 7.00

NEW YORK. A good, all-around sort, large, colorful berries..... 7.00

SENATOR DUNLAP. Firm berries of medium size, uniform in color and shape. Very prolific..... 7.00

LATE VARIETIES

BIG LATE. One of the finest late varieties. Ranks with 100 best in vigor of plant growth, productiveness and quality. Large, bright glossy red berry; excellent shipper..... \$7.00

GANDY. A popular, late-fruited variety, large, bright crimson fruit..... 7.00

LUPTON. Very much like Gandy, but much more productive and about five or six days earlier. We consider this one of the very finest of the varieties fruiting late..... 7.00

NEW WASHINGTON. Popular late sort; very prolific, with firm, delicious fruit..... 8.00

SHARPLESS. A fine, late variety, producing handsome large berries..... 7.00

WM. BELT. An all-season variety, fruiting from early to quite late; the berries are large, handsome and full flavored..... 7.00

EVERBEARING STRAWBERRIES

In addition to bearing a good crop in late Summer and Autumn, they also produce heavy crops of fruit as early as June. In order to be sure of a good Fall crop the blossoms should be removed from the plant as they appear from the first to the middle of July.

100

GEM. The new Everbearing Sensation producing sparkling red berries uniformly large in size. They are solid red to the center, juicy, deliciously sweet and very free from acid..... \$12.00

EMPIRE ALL RED. This variety combines the excellent flavor and sweetness of "Progressive," with the large size and productiveness of "Mastodon." The berries are oval in shape and all red throughout.... 12.00

MASTODON. This is truly the largest, most delicious and heaviest yielding of all Everbearing sorts. It out-yields some of the finest June bearing sorts during their season, and continues to produce throughout the Summer and Fall berries of amazing size and surpassing quality..... 10.00

PROGRESSIVE. One of the most popular and prolific of the Fall-bearing sorts. The berries are smooth and uniform in size and shape, and of a deep crimson color..... 9.00

Lawn Seed Mixtures

M.-S. CO.'S SPECIAL LAWN GRASS MIXTURE

Weight per measured bushel, 28 to 30 lbs.

Our Special Lawn Grass Mixture is composed solely of the finest and heaviest seeds in the following varieties, carefully blended: **Chewings Fescue, Kentucky Blue Grass, Fancy Red Top, Rough Stalked Meadow Grass, Pacey's English Rye Grass.**

Lawn Grass Mixtures at a much lower price are very often sold, but the use of these can only lead to disappointment, if a really fine lawn is desired. This mixture is the very best that can be procured.

For new lawns we recommend sowing 100 lbs. to the acre. For renovating lawns use half of this quantity. 25 lbs. \$14.00, 100 lbs. \$55.00.

The above mixture with GERMAN BENT, 25 lbs. \$15.25, 100 lbs. \$60.00

CENTRAL PARK LAWN GRASS MIXTURE

Weight per measured bushel, 20 lbs.

A well known mixture of high grade grasses that is still desired by many. 25 lbs. \$13.00, 100 lbs. \$50.00.

"SHADY PLACE" LAWN GRASS

This mixture is composed of grasses that are naturally adapted for growing under trees and shaded situations. 25 lbs. \$14.75, 100 lbs. \$58.00.

LAWN RESTORING GRASS MIXTURE

A mixture of grasses suited to take firm hold and grow quickly on hard, worn out or burned spots. 25 lbs. \$14.00, 100 lbs. \$55.00.

LAWN TENNIS GRASS MIXTURE

Composed of fineleaved, deep rooting grasses that will produce a fine, close, elastic turf. 25 lbs. \$14.00, 100 lbs. \$55.00.

TERRACE GRASS MIXTURE

A mixture of deep rooting grasses suited for terraces and embankments, that takes firm hold and withstands drought and exposure. 25 lbs. \$14.00, 100 lbs. \$55.00.

FAIR GREEN MIXTURE

Composed of dwarf spreading grasses, forming a close, velvety surface that improves from year to year. 25 lbs. \$13.00, 100 lbs. \$50.00.

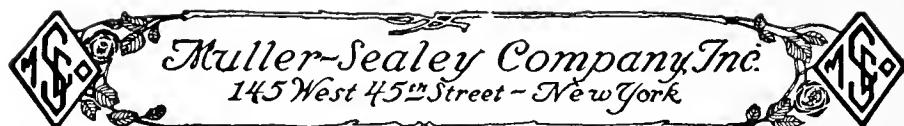

PUTTING GREEN MIXTURE

This mixture consists of most suitable grasses for insuring a close, dense turf, essential for putting greens. 25 lbs. \$20.25, 100 lbs. \$80.00.

SPECIAL MIXTURES FOR HAY AND PERMANENT PASTURE

These mixtures include the most nutritive and productive grasses suitable for laying down light, medium and heavy soils to permanent grass. State nature of soil when ordering. 25 lbs. \$10.50, 100 lbs. \$40.00.
